

The EHGA community is made by Hung Gar masters, students and people who are simply interested in this traditional Kung Fu Style.

You can explore our community members' name and activities also going directly to the countries' section.

This is the list of the EHGA members (in bold the name of the head for the country). Check the Web Links page of our site to see a direct connection to their own web site and to read more information about the sifu and the schools.
